  - **Developing and implementation of Community Emergency Procedures**
  - **Emergency Medical Service Coordination and Emergency Drills**
  - **Volunteer Programs**

Women's Health Services

The Women's Health Program strives to promote and protect the health and well-being of the women of Fulton County, and the health of their families, through education, prevention and prompt attention to their health care needs. Services include:

- Family Planning
- Women’s Health Medicaid
- Babies Born Healthy
- BreasTest and More
- Perinatal Case Management
- Pregnancy Related Services
- Breast and Cervical Cancer Screenings

Immunizations

The primary goal of the Immunization Program is to protect the community from vaccine-preventable diseases. Services offered:

- Adults and Children Immunizations
- Travel Vaccines

Population Health

The Division of Population Health conducts and supports evidence-based processes and programs in the Department of Health and Wellness. Efforts are focused on health determinants affecting the entire population of Fulton County rather than only ill or high-risk individuals. The Division does this by collecting, analyzing and disseminating information such as data or statistical health reports, through internal program evaluation, through population based health promotion/disease prevention programs and by supporting public health research. The programs under Population Health are:

- Epidemiology
- The Public Health Institute
- Public Health Liaison
- Program Evaluation
- Prevention Services
  - Health Promotion Initiative
  - Fulton County Safe Kids Coalition

Child Health

The Child Health Program is dedicated to providing high quality, comprehensive health care to the children of

Fulton County. The staff strives to ensure that children and adolescents receive preventive health care through implementation of the following:

- Health Check
- Lead Screening
- Hearing, Vision, Dental Screenings
- Adolescent Health and Youth Development
- Universal Newborn Screening
- High-Risk Infant Follow-up
- Children’s First
- Babies Can’t Wait
- Children Medical Services

Vital Records

The Office of Vital Records is charged with the responsibility of maintaining a uniform system for registration and a permanent central registry with a comprehensive and continuous index for all birth and death certificates registered for vital events which occur in Fulton County.

Environmental Health Services

The Environmental Health Division ensures a safe and healthy environment for County residents striving to prevent disease and injury through education and enforcement of environmental health laws for water, air and food.

Areas of responsibilities include:

- Restaurants
- Residential Developments
- Septic Tank Systems
- Water Wells
- Swimming Pools
- Hotels & Motels
- Clean Indoor Air
- Rat Control, Solid Waste, and Nuisances

Environmental Health Services is also responsible for controlling mosquitoes to prevent serious disease including the **West Nile Virus**. This is achieved by:

- Mapping and Record Keeping
- Larval Surveillance
- Counting and Identifying Species
- Source Reduction
- Biological and Chemical Control
- Education
- Enforcement
- Community-wide Cleanups

Communicable Diseases

The Communicable Diseases Branch provides services to residents at high risk for STI (Sexually Transmitted Infections) HIV and TB infections. These individuals access STI and TB diagnosis and treatment on-site, medications to ensure compliance in TB infected clients, laboratory for STI diagnosis, syphilis case management, partner notification, STI/HIV/TB surveillance, HIV counseling and testing, STI/HIV/TB prevention and education and community outreach activities. The Branch has three major components. They are:

- Sexually Transmitted Infections
- HIV Primary Care
- Tuberculosis

Dental Health

Comprehensive oral health services are provided to children and young adults (3-20 years old), including exams, x-rays, cleanings, fluoride, white and silver fillings, nerve treatments, extractions, and stainless steel crowns. Accept Medicaid, Doral, Avesis, or \$25.00 registration fee (income eligible). Please call for nearest location and appointment.

Adult dental services are offered at the Neighborhood Union Clinic three days per week. Services include exams, x-rays, cleanings, nerve treatments, extractions, white and silver fillings, teeth whitener, and emergency treatments. Walk- ins are welcome and sliding fee schedule is available. To make an appointment, call Neighborhood Union Health Center Dental Program.

Nutrition Services

The Women, Infants and Children Program (WIC) is a special supplemental nutrition program for women, infants and children up to the age of 5. The program helps to improve the nutrition status of families through Nutrition Education and food vouchers to eligible participants. WIC provides:

- Healthy Foods: milk, eggs, cheese, cereal, juice, beans, peanut butter and infant formula.
- Nutrition Education from licensed and registered Dietitians.
- Breastfeeding information and support.
- Referrals to other social services

Nursing Services

Nursing Services provides public health nursing to County residents and coordinates most of the services in the Department such as: immunizations, family planning, perinatal case management, well child care, HIV/ AIDS, tuberculosis control, lead screening, refugee health, sexually transmitted infections, prevention of developmental disabilities, chronic disease prevention and management, medical services for chronically ill or disabled children, women, infants and children nutrition program (WIC); and other nutrition counseling.

Emergency Preparedness Program

The Office of Emergency Preparedness (OEP) is responsible for developing and implementing plans to dispense the appropriate medication to citizens in the event of a bio-terrorist attack. OEP conducts emergency drills throughout the year to test readiness response. The Emergency Medical Service (EMS) Coordination Program provides emergency medical direction and quality assurance to the 911 Communications Center's emergency medical and first responder service. OEP also operates two volunteer programs, the Medical Reserve Corps (MRC) and the Community Emergency Response Team (CERT).
